### Summary

A passionate full spectrum product designer with experience in designing and shipping digital products for Food Tech, Fin Tech & SaaS companies. I'm an advocate for functional, aesthetic and user-centred products which has an impact on people's life solving a need. I have a strong notion that a good product is a concoction of design and technology.

### Professional Experience

#### User Experience Design Intern | Google

June 2019 - September 2019

Designed and shipped the first version of the design system for Google Ad Manager. Primarily worked on the component library from audit to shipping a library of reusable components for designers in the team. Worked closely with the visual design lead, a senior interaction designer to define the component design process and standardize the elements.

#### Interaction Designer | Zeta

February 2018 - August 2018

Improved the visual design and user experience of the leave travel allowance program in Zeta optima. Worked on two stealth mode products which focus on digitising the tax benefits for employers & employees on web and mobile platforms by ideating, conceptualizing and designing the product.

#### Product Designer | Zoho Corporation

December 2015 - January 2018

Designed and shipped the first version of Zoho Sheet product on mobile platforms as the primary product designer. I worked on designing the application for iOS and Android platforms from ideating features, wireframing to high fidelity mocks and framing a design system. Worked closely with the developers, product managers to effectively ship the product to the respective application stores which onboard many web application users to the mobile platforms.

#### Product Designer | Holachef

June 2015 - December 2015

Designed and shipped the second version of the iOS and Android applications for the company. Collaborated with the product design lead to redesign the primary web product. Designed the mobile applications for chefs and delivery executives to ease their work which was also a part of the digital ecosystem helping in the functioning of the business.
